

You Gave Me My Name  
Words and music by Andrea Carter

My God, Creator of the mountains.  
Every rock and grain of sand were summoned there by His command  
My God made the eyes of the hurricanes  
He tells the wind which way to go and then He calls them back again  
My God gives orders to the hands of time  
Present past and future are all part of His design  
You know me by name  
And You know me by name

You are God we love You  
You are God we need You  
And so we sing in one voice and call out for You  
And so we sing in one voice and call out for You  
We call out for You  
We call out for You

My God defends His beloved one  
And every battle we encounter He stands up to fight for us  
My God walks with His treasured one  
And in our flaws fears and failures He still delights in us  
My God, Faithful to the faithless one  
And no matter where we're runnin He's there waitin for us  
You call me by name  
Yes You call me by name

You are God we love You  
You are God we need You  
And so we sing in one voice and call out for You  
And so we sing in one voice and call out for You  
We call out for You  
We call out for You

Father forgive me become everything I need  
Father forgive me become even the air I breathe  
The air I breathe  
The air I breathe

*You gave me my name  
You gave me my name*

You are God we love You  
You are God we need You  
And so we sing in one voice and call out for You  
And so we sing in one voice and call out for You  
We call out for You  
We call out for You

*You gave me my name  
You gave me my name*
