

Please help us have a safe, healthy gathering. For right now, please follow these guidelines.

Before the gathering

Please do **not** attend the gathering if any of the following are true:

- You are uncomfortable attending (regardless of your health status).
- You have symptoms of contagious illness or a fever (temperature of 100.4° or higher).
- You have any exposure to or have personally tested positive for COVID-19 within the last two weeks.
- You are in any [high risk categories](#) for severe disease (*optional, but encouraged*).

During the gathering

- If gathering with people who don't live in your household, **please do not gather indoors** (as Dane County currently prohibits indoor gatherings of any size). Gatherings may occur outdoors with up to 10 people.
- Practice good hand hygiene.
- Physically distance from others by 6 feet.
- Do not bring shared or buffet-style food/drink to share with others. You may bring your own food/drink for yourself to enjoy, or pre-packaged individual portions of food/drink for others to enjoy.
- Be cautious if engaging in corporate singing; the lowest risk option is to sing outdoors for a short duration while being socially distant and wearing masks.

After the gathering

- If you test positive for COVID-19 within two weeks after our gathering, please let the gathering's ministry leader/staff person know ASAP. We may need to communicate news of the positive test result to other participants (but would do so in a way that maintains your confidentiality).
